

SLOTH TECHNICIAN SUPERVISOR

THIS POSITION HAS BEEN FILLED FOR 2018. JULY 2018 WE WILL BEGIN ACCEPTING APPLICATIONS FOR 2019.

ABOUT

The **Saving Sloths Together (SST)** program was founded in 2017 by The Toucan Rescue Ranch and The Sloth Institute with the purpose of combining each organization's skills and knowledge to improve the process of sloth rescue, rehabilitation and release in Costa Rica. Together, we are able to combine the best medical care, scientific expertise, dedication and passion to provide the very best experience for every sloth needing help for a second chance at a life in the wild.

Toucan Rescue Ranch (TRR): was founded in 2004 for the purpose to rescue, rehabilitate, and release Costa Rican wildlife. TRR receives and cares for confiscated, sick, and injured wildlife from government agencies. We give the animals a loving home while providing appropriate medical treatment and rehabilitation in order to return them safely to the wild. TRR is a legal foundation in Costa Rica and is a 501(c)3 tax deductible non-profit. Our headquarters are located in the San Isidro, Heredia in the central region of Costa Rica.

The Sloth Institute Costa Rica (TSI) was founded in 2014 for the purpose of enhancing the welfare of captive and wild sloths through research and education. We also collaborate with Toucan Rescue Ranch on the rescue, rehabilitation and release of sloths. TSI is a legal non-profit in Costa Rica and fiscally sponsored by a US 501(c)3 tax deductible non-profit. Our headquarters are located in the Manuel Antonio rainforest maritime zone property at Tulemar Resort a short distance from Manuel Antonio National Park.

POSITION DESCRIPTION

The Saving Sloths Together program is looking for a Sloth Technician Supervisor to manage the daily operations of Toucan Rescue Ranch's release site in Sarapiquí, Costa Rica. We are looking for an active, passionate individual to help us elevate our sloth release program.

The Sloth Technician Supervisor absolutely must have the ability to work long days (12+ hours) with very little time off. In addition, because most of this work will occur at night, this person will need to be able to work when tired and basically become nocturnal.

This person must be extremely dedicated to sloth conservation, very organized, and is willing to forgo personal comfort for the benefit of the animals. You will be hot, sweaty, wet, cold, eaten by mosquitos, sleepy, sore, and tired but you'll still feel that there is no other place in the world that you would rather be than watching sloths in the jungle. The ideal person will sleep, breathe and dream about sloths! This is rigorous fieldwork with very limited hands on interactions with sloths.

Supervisory duties:

- Managing the progress of sloths in the release program at the Sarapiqui release site: Ensuring proper enrichment and dietary protocols are followed, weight gain and skill advancement for each sloth in the program.
- Training sloth technicians in all aspects of our release/husbandry protocols.
- Managing the capture, sampling and collaring of wild sloths for the TSI behavioral ecology program in Sarapiqui.
- Scheduling of sloth technicians for their regular shifts and days off.
- Basic first aid/triage to injured or sick sloths as needed.
- Management of equipment and supplies needed to perform all aspects of daily duties.

Research and fieldwork

- Conduct behavioral monitoring at night in the rainforest.
- Daily Data Entry
- Using VHF radio telemetry

Animal husbandry

- Preparing food/collecting wild food items for sloths
- Feeding, cleaning and enriching sloth cages
- Assist in opportunistic capture, sample collection and release of sloths

QUALIFICATIONS/EXPERIENCE

All applicants must be physically fit, healthy, have field research experience, behavioral research experience (Requires patience!), excellent communication skills, excellent

organization skills, a strong interest in animal welfare and conservation and a great sense of humor. Must be non-smoker.

Coursework or experience in zoology, environmental education, wildlife ecology, or a related field is required. Experience traveling to a tropical country and living in remote rainforest conditions are required.

Spanish language skills and experience working with VHF tracking technology are also required.

Must complete required vaccinations and purchase current international health insurance prior to arrival in Costa Rica.

Additional Items to Bring:

- Snake proof boots
- Serious rain gear, including heavy duty rain poncho. You will be getting wet very often.
- Comfortable clothing, preferably quick-dry. Clothes get destroyed in the jungle, so bring plenty of shirts/tank tops and shorts.
- Large umbrella
- Water bottle
- Backpack (waterproof is ideal)
- Headlamps
- Binoculars
- Laptop
- Unlocked smart phone
- Waterproof case for phone

LOCATION

This Release Site is located in Sarapiquí, about 1 ½ hours from the Toucan Rescue Ranch headquarters. The property is in a small village called Nazareth in the Sarapiquí region on the Caribbean slope of Costa Rica. This Release Site is remote and has a company vehicle for emergencies and animal related responsibilities.

SALARY/FUNDING

This position will receive a **\$350 per month stipend**. You will be responsible for all travel expenses/flights and immigration expenses. Room in shared house and basic meals will be provided. WIFI, electricity and running water will be included. Work schedule is 11 days on with 3 days off to travel and explore other nearby attractions.

Saving Sloths Together | The Sloth Institute & The Toucan Rescue Ranch

Term of Appointment: Must be willing to stay at least 1 year with an option for extension upon review. Position begins as early as possible in March of 2018.

To apply please send your CV and letter of interest to Volunteer@theslothinstitute.org.
